EXPERIENCE

Ameriprise Financial Inc., Minneapolis, MN

July 2015 - May 2017

Sr. HRIS Analyst (Senior Human Resource Information Systems Analyst)

- Managed customization requests for Peoplesoft HCM and CRM modules; multi-tasked several projects at once
- Gathered and wrote business requirements on more than twenty technical projects
- Wrote and executed test cases, completed UAT on behalf of business partners
- Coordinated an 8-month annual payroll-year-end project while adhering to PMBOK best practices
- Managed all system interfaces between HR systems and external vendors using Toad for Oracle SQL database
- Managed the design and implementation of Oracle (SQL) database interfaces
- Built strong relationships in a diverse work environment: 50% of the team was in India, 40% in the USA, 10% in England

Caribou Coffee Company, Minneapolis, MN

October 2013 - June 2015

Recruiting Coordinator and HR Technology Representative

- Advised end-users on usage of ADP's Applicant Tracking System (ATS)
- Recruited candidates in both high volume and professional environments
- Compiled and implemented manager training on recruiting best practices
- Organized and executed job fairs to generate applicant flow
- Administered background check and background check appeals program
- Collaborated with marketing to produce advertisements and social media content to drive applications
- Lowered field turnover rate by educating and supporting hiring managers on hiring best-practices and by implementing job fairs

Caribou Coffee Company, Minneapolis, MN

August 2010 - October 2013

HR Benefits and Technology Representative, Shift Supervisor

- Administered LOA and accommodation requests for field team members
- Conducted monthly benefit eligibility audits utilizing Microsoft Excel

- Streamlined workflow by standardizing processes using Mail Merge in Microsoft Word
- Created a reference library for common benefit inquiries in Microsoft Word
- Created and executed department reward and recognition program
- Received “*MelonHead Award*” from CEO in front of entire company for showing compassion and empathy to team members on leave of absence when the company unexpectedly closed 400 units
- Managed, trained, and supervised daily operations for twenty-four team members

PROJECTS

Boston University, “Doogie Howser System”, individual work -- Python

Designed and implemented a program in Python to save, track, and analyze user-inputted health and wellness data. Code available at: <https://github.com/leetrojenkins/DoogieHowserProgram>

Boston University, “Health and Wellness Database”, individual work -- SQL

Designed and implemented a normalized (BCNF) database for storing and retrieving health data enabling patients and doctors to easily exchange information. Code available at: <https://github.com/leetrojenkins/HealthandWellness>

Xi’an Jiaotong – Liverpool University, Undergraduate thesis

Title: *National culture and knowledge transfer: the effects of culture as measured by the GLOBE project dimensions on the efficiency of knowledge transfer in micro-foundational transactions.*

Received first-class honors on a research project to better understand the relationship between culture and knowledge transfer. Chose a qualitative research method (survey) and designed a survey to gather and analyze data points from more than 300 survey participants.

Ameriprise Financial, Payroll year-end reconciliation, team of ~40

Coordinated the yearly payroll year-end tax and reconciliation project two times. The role involved gathering and updating requirements, assembling a project plan using Microsoft Project, running weekly meetings with key team leaders, and supporting the team in any way necessary to ensure no deadlines were missed.

Ameriprise Financial, Knowledge repository, team of 5

Designed and catalogued SOP documentation to minimize knowledge loss due to future turnover. Identified areas of risk, ensured SOPs were documented, and entered the SOP into the system.

Ameriprise Financial, CRM and HCM security re-design, team of 1

Restructured enterprise-wide security protocols for PeopleSoft CRM and HCM, which included auditing security roles and permission, restricting access based on business needs, and ensuring that the new protocols were SOX compliant.

Ameriprise Financial, Workflow Improvement, team of 1

Re-designed a workflow process to utilize Microsoft SharePoint instead of email to save the Director of HR Technology two hours each week.

Caribou Coffee, HR call tracking system, team of 1

Identified a key area of risk for the business (no record of phone calls), petitioned management for resources to implement a system, sourced a software package, worked with IT on the installation, and trained the HR department on the system’s use.

Caribou Coffee, Knowledge library, team of 3

Identified the need for a central repository of policies and procedures related to benefits and leave of absence. Spearheaded the creation of a system for the benefits team to use that contained complete and up-to-date information and ensured that each employee was getting consistent information.

VOLUNTEERING & EXTRA-CURRICULARS

Troy’s Bikes, restored, marketed, and sold more than 25 vintage bicycles in a three-year period

Mandarin Chinese, Passed HSK level 3, currently studying for level 4

Music, assisted my church with music each week by playing guitar and singing on the worship team

Teaching, taught English to adult language learners

Finance Team, part of a four-person team that managed a quarter-million-dollar church budget
